

Cybersecurity Intelligence Agency

"Protecting the Future"

2023/24 Cyber Agent Program (Cyber Defense Competition)

"This program was a fun and efficient way to learn how to secure my computer. It dove much deeper into the different functions of my operating system and it taught me how much I did not know."

Xavier

The importance

- Last year, the estimated global cost of cybercrime was \$6 Trillion USD. Cybersecurity Ventures expect cybercrime to grow to \$10.5 Trillion USD by 2025.
- The World Economic Forum stated "there is an undersupply of cyber professionals". Last year, a gap of more than 2.7 million worldwide.

About this program

- CyberTitan is one of Canada's largest cyber defense competition and is affiliated with the US Air Force Association's CyberPatriot Program.
- Students compete with around 5,000 teams in a global competition for awards, prizes and scholarships.
- Certified information security professionals prepare middle and high school students with critical skills for a digital-based economy such as, problem-solving, creativity, communication, leadership and teamwork.
- Students identify and fix cybersecurity vulnerabilities in virtual systems and networks while keeping critical services running. Teams are scored on how secure they make the systems and networks.
- It is designed for any student regardless of prior cybersecurity knowledge.

"This program was fun and a valuable way to advance my knowledge of computers and learn the security required to stay safe online."

Arya

2023/24 - 4 months (Jul to Oct, 48 hours)

- Jul to Aug - Training (24 hours)
- Sep to Oct - Practice simulations (24 hours)
